  - We have highly qualified, experienced and professional Personnel, like Doctor, MBA Personal, Engineers, etc. who volunteer their services, time and guidance towards the objectives of the organization.
  - Our organization started it works from grass-root level and then gradually going up to address other groups who will be the beneficiary of our different projects.
  - We have a strong network of volunteers.
- Negative side of our organization - Lack of corpus Fund.

## Our Beginning

In 2016, three visionaries from different fields felt a deep desire to do their bit in helping the community to change its days to come in a better way, a number of businessmen, donors, volunteers and family members, came together to support their effort.

The purpose was to provide an opportunity for the people of the community and their dear ones, to enjoy a day out doing something very different. And different it was, whether it was distribution of the cloths to the poor, taking the unknown patients to the hospital, teaching the underprivileged children on Sundays or spare time. The key word, that occurred to everyone there, whether patients or helpers, teachers or students was "togetherness".

The planned events and also few unplanned events were so successful that a decision was reached to continue doing all this regularly under certain banner and to call it MUSLIM EDUCATIONAL AND SOCIAL UPLIFTMENT TRUST (MESUT).

## About Us

In October 2017, the Muslim Educational and Social Upliftment Trust was established. The Trust's main objectives are to provide a wish-list service and events for people who deserve to live in this world with dignity. This is such an exciting venture and has been received with so much support in our community. It is truly a privilege to be involved with the Muslim Educational and Social Upliftment Trust (MESUT) and to move forward knowing that we are making a real difference in people's lives.

As a team we strongly believe that opportunities to bring people together and to share on many levels are crucial ingredients to living life to its fullest. Providing Education and Health Service are our primarily focus, at the same time we offer opportunities that bring people together. We will be pulling out all stops from the road of the School which MESUT is going to launch officially soon.

The Muslim Educational and Social Upliftment Trust has a forever growing base of dedicated and generous supporters. The services we provide are dependent on the support we get from service providers, sponsors, partnership networks and volunteers. In 2017 we received a generous donation from donors all over the country to help us to continue our work of granting wishes to the community.

The services of the Muslim Educational and Social Upliftment Trust have been in operation for 6 months and during this time we have benefitted and made a real difference in the lives of many people.

From our humble beginnings we have grown to the point where we are now and have a fabulous team of Volunteer workers. The board is always looking at ways to improve our services. We are continually investigating how we can further provide opportunities to serve the community.

As we move forward we realize that our strong leadership and experience will allow us to create a sustainable future. Our intention is to deliver on our mission - to enable people living with life with dignity, to realize their dreams and create memories that they and their families can cherish.
